Introduction

creating an ultimate comfortable

passage experience.

Unveiling the ZKTeco Saturn Series, an innovative swing barrier turnstile designed for an paralleled passage experience. With its sophisticated design, the Saturn Series has two models (S1000 and S1200) and is available in range of striking colors including Pearl White, Space Gray, and Bay Blue, Mist Brown and Carbon Black, making it blends seamlessly with both indoor and outdoor applications.

The Saturn Series chassis is made from cold-rolled SPCC steel (GB700). It achieves IPX4 protection rating, ensuring exceptional resistance to water and dust. The authentication area is enhanced with 2.5D tempered glass for scratch resistance.

Available in single or dual swing configurations, Saturn Series supports facial authentication, QR codes and RFID card authentication. Additionally, it features four pairs of infrared sensors for dual pinch protection, enhancing safety with locked positions and automatic swing barrier opening during emergencies.

floor surfaces. With floating beam

structure.

Key Features

Innovative Aesthetics

The Saturn Series is available in an array of contemporary colors, including Pearl White, Space Gray, Bay Blue, Mist Brown and Carbon black.

Durability

The lid is made using an integrated molding process, achieves an IPX4 protection rating, offering robust defense against water and dust.

The product is designed to thrive in extreme conditions, maintaining functionality after an 8-hour period in sub-zero temperatures as low as -30°C.

Material Innovation

The outer surface is treated with electrostatic spraying, which ensures excellent adhesion and prevents paint from dripping. This treatment also aids in thermal regulation, preventing surface burns due to high temperatures. The identification area is elegantly embedded with 2.5D tempered glass, which is resistant to scratches and wear, enhancing the clarity of the identification process.

DC Brushless Motor

The Saturn Series uses DC brushless motors, which are stable and reliable, and the movement life reaches 3 million MCBF.

The barrier material is made of acrylic and the default lane width is 650mm, an optional 900mm lane width is also available. The modular design offers greater convenience when it comes to replacement and maintenance, while also delivering cost savings.

Safety and Security

Safety features include a swing arm with the upper edge is more than 800mm from the ground and the lower edge is less than 200mm, allowing normal operation even when submerged in water up to 0.8m, effectively preventing unauthorized crossings. Additionally, the Saturn Series is fortified with 4 pairs of infrared sensors for double anti-crushing protection and a leakage protection switch to protect against electrical hazards.

Specifications

Model	Saturn-S1000	Saturn-S1200	
Audio Indicator	Internal speaker		
Visual Indicator	Top LED indicator: Blue=Door closed /stand by Green=Door opening Red=Door closing/alarm	Slide LED indicator: Green=Lane available Red=Lane unavailable	
Display	NA		
Lane Type	Single lane	Dual Swing(for additional lane)	
Lane Width	650mm (Standard) 900mm (Optional)		
Barrier Movement Type	Swing		
Motor	DC brushless motor		
Movement Speed	Average 1s per movement (Adjustable open/close timing)		
Movement Accuracy	NA		
Clutch	NA		
Lid Material	Polycarbonate+2.5D tempered glass		
Lid Options Authentication Methods	Streamlined under mount options: QR Code / RFID Surface mount option: Facial Authentication		
Chassis Material	Cold-rolled SPCC Steel (GB700) / Polycarbonate (Side Lid)		
Chassis Colour	Pearl White(PWH), Space Gray(SGY), Carbon Black(CBK), Bay Blue(BBLE), Mist Brown(MBW)		
Barrier Material	Clear acrylic (635*300mm)(standard) / Tempered glass (635*425mm)(optional)		
IR Sensors	4 pairs		
Motherboard Function	System configuration, access control		
Motherboard Communication	Fire alarm port (relay)*1, RS485 port*1,		
Controller	Not equipped, allowing optional from C3/InBio Series series or customization.		
Credential Options	Under mount RFID reader: (support model: Pro ID Series, KR Series) Under mount fingerprint reader: FR1200/FR1500S		
Flow Rate	Facial Authentication: 15 passengers per minute QR Code: 30 passengers per minute RFID: 35 passengers per minute		
Accessibility	Adult, children(with care), Disability(with care)		
Power Supply	110V / 220V ±10% AC @50Hz/60Hz		
Power Rating	10VA(Standby) 40VA(Operation)		
Fire Signal	Input for voltage free contact		
Noise Level	Less than 60dB		
MTTR	Less than 60 minutes		
MCBF	3 million		
Weight	50kg	30kg	

Dimension (L*W*H)	1200 * 150 * 1020 mm	
Dimensions With Packing(L*W*H)	Carton(standard): 1265*220*1070 mm(2 boxes) Wooden box(optional): 1300*480*1224mm(1 box)	Carton(standard): 1265*220*1070mm(1 box) Wooden box(optional): 1300*260*1224mm(1 box)
Operating Temperature	-30 °C to 70 °C	
Operating Humidity	5% to 90% RH (Non-condensing)	
Certifications	CE, FCC	
Ingress Protection Rating	IPX4	
Supported Software	ZKBio CVAccess / ZKBio CVSecurity (Depends on equipped access controller)	
Safety Features	Voltage free contact input for fire alarm fail state automatic swing barrier open during power off	
Security Features	Anti-tailgating, anti-pinch	
Product Delivery	Pre-assembled	
Application Environment	Indoor / outdoor (if sheltered)	
Site Preparation	Flat & level finished floor (base plate in options for unfinished floor)	
Security Level	Low	
Emergency Mode	Support (swing barrier open automatically)	
Packing Material	Carton(standard) / Wooden(optional)	

Color Options

Pearl White(PWH) Space Gray(SGY) Carbon Black(CBK) Bay Blue(BBLE) Mist Brown(MBW)
